

Dear Suffolk Sister Cities International,

Project Peanut Butter thanks you for your VERY generous donation of \$5000 to Project Peanut Butter. 100% of this tax-deductible donation goes towards the feeding programs in sub-Saharan Africa.

Factory Manager, Alima Jimu and her husband, Joy visited the United States as guests to speak on effective local production of RUTF. She is seen here with Margaret Loehnig, small-scale production project manager and Martin Histan, technical and facilities advisor. Their trip was paid for by USAID, as part of a RUTF conference.

Last week, PPB Ghana funded a 4-day CMAM (community management of acute malnutrition) training for 47 health workers in Atebubu district, Ghana. The district will be the first in Ghana to use RUTF that we produce in our Kumasi factory. This training is paid for by designated gifts and grants.

Again, thank you,

Mardi Manary
